

FINANCIAL QUOTATIONS

Communications addressed to this column, in order to be answered, must be signed and give the address of the sender. Predictions as to how high or low a stock may go will not be made.

Q. I am a stockholder of the China Copper Company but am not in receipt of the company's report for the six months ending June 30. Can you give me the figures of earnings per share.

A. The report for the second quarter ending June 30, 1913, has just been made public. Total profits for that period were \$370,445, equivalent to 42 cents a share. For the six months total profits were equivalent to an amount equal to 22 cents a share. This compares with \$2.49 for the same period of 1912.

Q. I am curious to know why the Liberty Bond 3-12s and 3-14s have stayed so close to the price at which they were originally issued, while the other Liberty Bonds have declined?

A. The reason that the Liberty 3-12s and 3-14s have remained at the figure that represents only a fractional decline from their issued price is due to the fact that they carry exemption from all taxation, both Federal and local, except estate and inheritance taxes. This exemption extends throughout the entire country and therefore they are very attractive to large taxpayers.

Q. Can you tell me the name of a

A CRIPPLE FOR THREE YEARS

Helpless in Bed With Rheumatism Until He Took "FRUIT-A-TIVES."

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.
"For over three years I was confined to bed with rheumatism. During that time I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure rheumatism, without receiving any benefit. Finally, I decided to try 'Fruit-a-tives' (or Fruit Liver Tablets). Before I had used half a box I noticed an improvement; the pain was not so severe and the swelling started to go down."

"I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

ALEXANDER MUNRO.

Article No. 25

Chiropractic For Health

The way to overcome kidney disorders and prevent diabetes is to insure the right quantity of vital force to the kidneys. The several variations from normal heart action may be corrected and normal heart action continued in the same way. Compression of nerves at the spine is the cause of the deteriorated tissue and disturbed lung function that makes so many susceptible to acute lung disorders. In many cases of gall stones the stones have dissolved under the influence of the natural forces of the body that are set into normal action through Chiropractic adjustment. Rheumatism, neuritis and other painful nervous diseases have, in many cases, been fully overcome when nothing else tried would relieve them. In gastro intestinal disorders the effect of Chiropractic adjustment is often one of immediate and very definite relief for any of the large group of complaints that have as secondary causes, chiefly, defective alimentation and elimination and a direct cause of interference with the nerves where they pass through the spine.

All of these nerves go through the backbone. It is the bony channel nature arranged to insure the soft nerve trunks a system of perfect distribution. If it stays in shape, all goes well with the body. If it gets disordered, it squeezes the soft nerve trunks and that shuts off energy from the brain to the degree and in the manner you would interrupt the flow of water by squeezing a soft rubber tube between your fingers.

Before consulting a Chiropractor always make inquiry to the Chiropractic Bureau of Public Information. Address all inquiries to C. B., Box 50,

The Evening World, New York City
Chiropractors of New York & New Jersey
(Rights Reserved.)

opens an account, but in view of recent failure and the investigations carried on by the authorities I am somewhat suspicious of the average broker.

A. H.
The investigation carried on by the authorities recently, in which they made an expose of various so-called stock brokerage organizations and "get-rich-quick" promoters, that are members of a recognized stock exchange. As a rule these houses carry on a conservative business and are considered responsible in every way. While it is true that there are failures now and then the percentage is extremely small. This column can not recommend any particular house, but suggests an investigation through your own bank before opening an account.

Q. Does the Texas Company, whose stock is listed on the New York Stock Exchange, own any ships or pipe lines, or does it depend on other concerns for the transportation of its product?

G. FREDERICKS.
The Texas Company owns both pipe lines and oil ships through its subsidiary, the Texas Pipe Line Company. It operates 1,415 miles of pipe line in Texas and Louisiana, and has a carrying capacity of 300,000 tons, with other vessels of 30,000 tons capacity. It is reported that material has been ordered for the construction of 80,000 tons additional. The concern also has a shipyard at Bath, Me.

Q. What is the highest price Calumet and Hecla Mining Company has ever sold at?

E. O'DONNELL.

Calumet and Hecla Mining Company sold at high as \$1,000 a share in 1912. The company was originally incorporated in Michigan in 1871 and the perpendicular rise in the market value of its stock has been used to great advantage by various mining promoters of a certain class, who in trying to dispose of their shares cite the tremendous profits made by Calumet and Hecla stockholders.

F. M. The securities you mention are all obsolete and space does not permit a full review of them. As you are a lawyer and say that you are continually looking up various inactive and worthless securities, we advise you to obtain a copy of "Smith's Obsolete Securities." This American-made book is a library in the larger cities and describes thousands of such securities.

SAYVILLE COUNTRY CLUB MAY HAVE 18-HOLE COURSE

Local Golf Club Proposes to Buy Grounds and a Club House.

(Special to The Evening World.)
SAYVILLE, N. J., Aug. 9.—Differences of opinion among members of the Sayville Golf Club as to the best location for a new club house and grounds have led to a movement looking to the organization of the Sayville Country Club, plans for which are under discussion by Judge Martin T. Mantor, Dr. George E. Rice, William H. Todd, W. K. Post, John Alvarez and others, the last named being President of the present golf club.

The storm in the golf club broke recently when it was proposed that, in view of the fact that the club can get no longer than a one-year lease of the present grounds in Candor avenue, the organization should purchase a sixty-acre plot on North Main Road, held by the Sayville Land Company. Some of those who supported the project were called "protections."

The land company, largely made up of members of the golf club, acquired the property some time ago for \$12,000. They have had an offer of \$30,000 for it. It lies some distance from the center of the village and was opposed by some on that account.

Now come the organizers of the Country Club with a proposal to acquire the 64-acre John B. Suydam estate on the South Road at Bayport and the 25-acre Todd place, adjoining, lay out an 18-hole course and convert the Suydam residence into a club house. The site has a frontage of 1,000 feet on Great South Bay, with yachting, bathing and fishing as "extra added attractions."

Among those who are discussing the project with the other gentlemen named are Cleveland H. Pratt, Martin A. Metzner, Dr. William H. Ross, L. C. Edwards, Francis Hoag, C. N. Kreiser, Robert H. Kohler, Sewall Thornhill, A. A. Dahn, A. J. Murphy, John O'Connor and Lawrence A. Lennig.

DR. J. R. ROSS EXONERATED.
He and Assistant at Danmore Insane Hospital Are Cleared.

ALBANY, Aug. 9.—The committee to investigate charges against Dr. John R. Ross, Superintendent of the Hospital for Criminal Insane at Danmore Prison, and Dr. Dealer, his assistant, exonerated them in a report submitted to Superintendent of Prisons Rattigan today.

The charges, made by Louis Greenman, a New York lawyer, on information supplied by his brother, L. Greenman, recently released from the hospital, were that some prisoners were held in the institution, that the food was unfit to eat, that the prisoners were poor, that two prisoners had been beaten death and that others were brutally treated.

Patrick Ward, an attendant, was charged with causing the death of a patient. The corporation, however, overruled him and the committee finds nothing to substantiate the charges. The committee, comprising Adolph Lewisohn, Mrs. Helen Hartley of Yonkers, Herk, Carpenter of New York, John R. Kennedy of Corning and Adolph Moore of Buffalo.

MOTOR CORPS HELPS.
Ambulances Are Used to Carry Stranded Women and Children.

The Motor Corps of the National League for Women's Service, under Lieut. Francis Blumenthal, extended its service to cover the strike situation today. The ambulances of the corps have been carrying crippled children between their homes and the Brooklyn and Jewish Hospitals. Yesterday and today the ambulances picked up women and children at Borough Hall subway station and carried them free to Flatlands, Coney Island and Ridgewood.

FINANCIAL NEWS AND PRICES

WALL STREET

News and Gossip of To-Day's Market—Present and Future Prices.

Throughout to-day's two-hour session the market was active and strong. This was attributed to the President's address to Congress. A strong tendency was witnessed throughout the list, particularly in the Steel and Railroad groups.

U. S. Steel sold up a point and five-eighths, with Crucible following. The Steel Corporation's tonnage statement showed an increase of 68,000 tons over last month's; unfilled tonnage on July 31 being 5,578,651, which compares with 4,822,555 tons on June 30. These figures appearing shortly before the close was accompanied by substantial buying orders in the corporation's common stock.

American Car & Foundry was again taken in hand and sold up to 12 1/4, which represents a gain of nine points over last night's close. Central Leather was another feature selling up 3/4 points on transactions involving 15,000 shares, while American Hide & Leather common sold up 1/4 to 31 1/4.

On the whole the market reflected the cheerful feeling throughout the financial district that Washington is taking a much better attitude toward the country's industrial and railroad situation, and as a result nothing occurred to impair the constructive action of the market. Buying of excellent quality, together with short covering, sent the recent speculative favorites up from 2 to 5 points, while among the railroads New Haven, on comparatively small transactions, went, sold up 3 1/2 points with such other rails as Texas-Pacific, Atchafalaya, Missouri-Pacific and Reading following. Among the tractions, R. T. T. in spite of its serious difficulties, showed a fractional gain.

The oil group was strong, with Sinclair holding the centre of the stage with a rise of two points and Pan-American Petroleum and Royal Dutch crowding it for the honors. Other features were Studebaker and Stutz, which both gained over two points, and Railways Steel Springs, which had a rise of three and one-quarter points.

The increased bank clearings reported from all sections of the country reflect expanding business activities. This week's total clearings amounted to \$8,055,809,417, compared with \$4,823,588,045 last week. Aggregate clearings this week, as compared with last year, represent an increase of \$7.5. The market continued strong to the close, and transactions for the day totalled slightly over 600,000 shares.

BRANDEIS FORESEES PALESTINE WEALTHY

Associate Supreme Court Justice Is Sanguine for British Mandatory —U. S. to Give Largely.

LONDON, Aug. 9.—Louis D. Brandeis, Associate Justice of the United States Supreme Court, who is visiting London after a trip to Palestine, is sanguine for the mandatory power for Palestine being vested in Great Britain, with whose good offices he believes the development of the country into a Jewish national homeland will be successful.

Mr. Brandeis says he expects America's contribution to this effort will be large in the point of money and administrative capacity, and in a minor degree in population. He says Palestine is making a record recovery. He will depart for the United States Aug. 20.

The Zionist organization here asserts that the British Government soon will send forward a commission to investigate the outrages by Polish civilians and soldiers on Jews and other sects in Poland.

JERSEYITES ADVISED NOT TO PAY NEW YORK INCOME TAX

Attorney General McCran Says If Compulsion Is Threatened He Will Take Action.

TRENTON, N. J., Aug. 9.—Attorney General McCran to-day advised residents of New Jersey employed or conducting business in New York, who may be taxed under the New York Income Tax Law, to refuse to pay. If threatened with compulsion to pay, they are asked to consult the Attorney General, who says he will take legal steps in their behalf. The law has been declared unconstitutional so far as it affects persons outside New York State.

The Attorney General said that Federal Judge Knox's decision in the suit of the Yale & Towne Manufacturing Company of Stamford, Conn., attacking the tax applied to non-residents, was along the line of New Jersey's contention against the imposition of the tax on New Jersey citizens.

GETS A PETAIN CITATION.
New Jersey Corporal Showed Unusual Bravery.

(Special to The Evening World.)
MAPLEWOOD, N. J., Aug. 9.—Russell Galbraith of Valley Street, a former Corporal in the United States Marine Corps, has just received by mail a citation accompanied by a Croix de Guerre for exceptional bravery.

The honor was conferred by Gen. Pe-tain, Commander in Chief of the French Armies of the East. The citation states that Corporal Galbraith, a member of Company D, 5th Regiment of Marines, "from Oct. 3 to 8, 1913, displayed exceptional bravery in his service with the burial group, carrying ammunition and supplies to the first lines and carrying off the wounded, often under violent bombardment."

Galbraith has been out of the service several months and the honors were received by him with surprise. He resides with his parents, Mr. and Mrs. Charles Galbraith. He enlisted shortly after the outbreak of the war.
